PROFILE

I am an enthusiastic and results-driven Junior Full Stack Developer with a strong foundation in modern web technologies, agile methodologies, and a passion for creating efficient and engaging web applications. With solid skills in problem-solving, system troubleshooting, and a deep understanding of hardware, operating systems, and software applications, I approach projects with attention to detail and a commitment to delivering scalable, high-quality solutions. My experience includes knowledge in information security, data protection methods, and collaborative problem-solving, making me an adaptable team player who thrives in dynamic environments. Dedicated to driving business success, I bring a blend of technical expertise, organizational skills, and a passion for continuous learning to every project I undertake.

PROJECT EXPERIENCE

Money Guard

Impact: Developed a personal finance management application with an intuitive system for real-time tracking of expenses and income, providing users with accurate financial insights.

Responsibilities as Team Leader: Directed the design and development of the app, leveraging Swagger API for reliable and precise data storage.

Skills Acquired: HTML, CSS, JavaScript, React, Node.js, API integration, Figma, GitHub, GitHub Desktop

Event Booster

Impact: Enhanced the online presence of Event Booster by optimizing its event search and ticket booking services, leading to a more seamless user experience.

Responsibilities as Scrum Master: Collaborated on the design and implementation of the website, focusing on developing modal windows to enhance user interaction and experience.

Skills Acquired: HTML, CSS, JavaScript, Node.js, API integration, Figma, GitHub, GitHub Desktop

Ice Cream

Impact: Designed and developed a professional website for IceCream, effectively showcasing their products and ensuring a high-quality online presence.

Responsibilities as Developer: Built the website from scratch using a Figma design template, ensuring full responsiveness and delivering an optimal user experience.

Skills Acquired: HTML5, CSS3, JavaScript, Parcel, Figma, GitHub, GitHub Desktop

WORK EXPERIENCE

APRIL 2022 – PRESENT
IT MANAGER– THINKVISER

In this role, I manage IT systems, oversee data operations, and handle network administration and installation. I am an expert in hardware, cabling, wireless technologies, IT security, and Microsoft Windows software. My responsibilities include purchasing IT equipment, managing inventory, and overseeing the monthly budget. I also ensure efficient multitasking, prioritize tasks effectively, and prepare regular reports for senior management. The technical skills required for this position include installing, configuring, and troubleshooting Windows 10/11, Server, Linux systems along with a solid understanding of TCP/IP networks. Organization, attention to detail, and strong analytical and problem-solving skills are key aspects of my work.

MAY 2019 – APRIL 2022
IT SPECIALIST – THINKVISER

In this position, I configured networks, routers (Fortigate), access points, Fortinet/Juniper switches, and VoIP systems. I was responsible for installing and configuring computer systems and printers, diagnosing hardware/software issues, and administering operating systems such as Windows Server 2016/2019, Windows 10/11, and Linux. I also managed Outlook, Exchange accounts, databases, and Active Directory, providing remote support via RDP, VPN, AnyDesk, and TeamViewer. In addition, I implemented and troubleshooted infrastructure support, and relied on strong technical troubleshooting and research skills.

JANUARY 2018 – MAY 2019
ACCOUNTING ECONOMIST – INTERNATIONAL RAIL TRANSPORT AND RAILWAY CONSTRUCTION

I was responsible for ensuring accounting compliance with the legislation in force and the correct recording of all financial transactions, such as invoices, receipts, payments, recording bank statements and monthly filing of tax returns with ANAF.
I was also responsible for verifying materials and prices for the tender documentation, in collaboration with the Ministry of Transport and Infrastructure.

FEBRUARY 2014 – MAY 2017
MARKETING / PR MANAGER
ESTEE BEUATY AND GABRINIS FASHION

I developed and executed marketing strategies, conducted market research and promoted brands on social networks and digital platforms. In addition, I created sales reports, managed relationships with sales agents and suppliers and managed budgets. I was responsible for creating promotional materials, organizing events, and overseeing the management of a beauty salon and a fashion design studio. My role also involved updating online services, managing staff records and recruiting, collaborating with teams, and preparing financial reports.

SEPTEMBER 2007 - MAY 2017 IT TECHNICIAN
ACADEMIA DE STUDII ECONOMICE DIN BUCURESTI

I organized and managed computer networks to support academic activities and ensured optimal performance of computing systems. My responsibilities included installing and configuring new equipment, such as computers and printers, as well as securing networks and databases. I provided technical support to students and assisted professors in the effective use of technology for teaching.
